SUBJECT: ~~SECRET~~ Kersten Amendment

Plans to note

Volunteer Freedom Corps
(VFC)

1. This paper was an enclosure to a letter for resulting from his monthly report. He had asked for guidance in policy and direction relative to the Kersten Amendment. STAT

2. It is my opinion that the treatment given here is very light for such a far reaching policy matter and in some instances is misleading.

a. For example, who is making the broad survey of recruitment, training, etc., germane to the Kersten Amendment; what results have become available; and who is making the preliminary plans to carry out these responsibilities? It is my opinion that this study and consideration is on a much higher level than any actions being taken in relation to the Kersten Amendment in your office.
